June 2, 2016

PLANNED NIGHT WORK
NIGHT WORK WILL START MON JUNE 13
NO COMPLETE ROAD CLOSURE

All the new water main between Marrett Road and Pleasant Street will be likely be complete by Friday, June 10th.

The next activity is connection of building services for homes and businesses to the new main. This entails digging a trench across the complete width of the street at every building between Marrett Road and Pleasant Street.

To complete this work, the road will have to be narrowed to one lane with traffic alternating in each direction. (Complete closure will not be necessary.) The work will be done at night, from 9 pm to 5 am. This restriction will begin **Monday, June 13th** and continue for approximately 6 weeks, until around July 22nd.

With this night work schedule, the contractor will consistently be able to complete one service every night. The construction noise outside of each home will be present but brief as work progresses down the street.

Water service interruptions for this work will be brief, about 1 hour at each address and this also will be at night so it will be mostly not noticeable.

If these restrictions will cause hardship or interfere with an event that you have planned at home, please contact the engineering division at massaveconstruction@lexingtonma.gov.

WORK SCHEDULED FOR THE WEEK OF MAY 31st

Contractor will be installing 16-inch pipe on the south side of Mass Ave from Independence Ave to near Joseph Street and 12-inch pipe from near Joseph to interconnect with the 16 inch main.

WORK COMPLETED

Contractor installed

12-inch main from Tower Park to Joseph St

16 inch main from Pleasant Street to near Curve St

16-inch and 12-inch main valves in Mass Ave near Pleasant Street

Thank you for your patience.

If possible, please send emails related to Mass Ave water construction to massaveconstruction@lexingtonma.gov. In addition, if you know of other people who are interested in being on this distribution list please ask them to email the request to this email address.
